Application/Control Number: 09/347,525

Art Unit: 1733

- 1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 2. Claims 7 and 9-12 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention/species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 9.
- 3. Claims 1-4, 6, 8 and 13-15 are rejected under 35 U.S.C. 103(a) as obvious over Deist (US 3,170,499) taken alone or further in view of Hanson (US 2,849,049) and Okada (US 6,039,826).

These references are applied for the same reasons already of record.

4. Applicant's arguments filed May 14, 2003 have been fully considered but they are not persuasive, at least as regards the prior art rejection. With the amendments to the claims, the 35 USC 112 rejection has however been withdrawn.

In particular, the arguments with respect to the prior art rejection have been amply treated in prior office actions.

Further, it is again stressed that (1) Deist clearly and unambiguously discloses using extruders with controlled feed to form the strip (col. 7); and (2) the argument that the fig. 2 embodiment does not have or desire a gradual transition or that the feeds are only stopped and then started is contradicted by *clear and unambiguous teachings to the contrary* - note for example col. 2, lines 41-46, it being noted as well that the main objective of the reference is to achieve a gradual transition - note col. 1, lines 11-23; col. 2, lines 24-33 as well as the preamble of almost all the clams. Applicant's arguments to

the contrary therefore ignore and misconstrue explicit teachings in the reference and therefore remain unconvincing.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Geoffrey L. Knable whose telephone number is 703-308-2062. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael W. Ball can be reached on 703-308-2058. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9310 for regular communications and 703-872-9311 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0651.
